Remarkable in any home

SuperHybird series is a modern flooring suitable for almost all living spaces, including bathrooms and laundries.

Elephant SPC Flooring is renowned for its durability. As a 100% waterproof product, it makes daily maintenance much easier.

Available in six stunning colors, this series becomes a visual focal point in any room, replicating the seamless and attractive appearance of modern floor surfaces.

Features & Benefits

Waterproof
Resists water.

Durable & Sturdy
Handles heavy use. Long lasting strength.

Low Heat Resistance
Stable under moderate heat.No deformation.

Diversity of Arrangements
Supports various layout patterns.

UV Resistance
Protects against fading from sunlight.

Unilin Click System
Easy and secure installation with a reliable interlocking mechanism.

Ultra Matt Surface
Creates a soft, elegant finish with minimal reflection.

Elephant SPC Flooring offers next-generation performance with a rigid mineral core that's 100% waterproof, highly resistant to wear, and dimensionally stable. Its multilayer structure ensures durability, acoustic insulation, and comfort underfoot. Designed for fast, glue-free installation, it's ideal for residential and commercial spaces alike - combining strength, style, and easy maintenance in one smart solution.
